Roads Division

Transportation Improvement Program (TIP) & Annual Construction Program

Public Works prepares the Six-Year Transportation Improvement Program (TIP) and Annual Construction Program to update and coordinate the county's future plans for road and transportation improvements.

Prior to the adoption of the TIP, the Board of County Commissioners conducts formal public hearings so the public can provide input and suggestions for projects.

[TIP Map for 2024-2029](#)

TIP Project Evaluation Process: An evaluation system is used for the selection of transportation projects for funding in the county's TIP program. Projects that are placed into the process are scored and ranked using objective criteria. These criteria include safety and/or capacity needs, structural condition, availability of funding, and timing of the funding, especially for state and federally funded programs.
