## Public Meeting Space

### Opportunities

- Potential new opportunities for public meeting space in the planning stage or under construction.
  - New Life Church
  - Future Kitsap Regional Library branch
  - New Central Kitsap High School and Middle School
  - C-STOCK

### Constraints

- Most of the current meeting spaces are for larger events and can be costly.
- New low-cost public meeting space generates little income and can be costly to operate.
- County has very limited operation funds to manage public meeting space.

Park Name	Acres
Island Lake County Park	23.0
Anderson Hill Athletic Fields	18.5
Silverdale Rotary Gateway Park	12.0
Old Mill Park	6.6
Ridgetop Park #1	5.0
Ridgetop Park #2	4.0
Silverdale Waterfront Park	2.3
<b>Total Acres</b>	<b>71.4</b>

## Outdoor Open Space

### Opportunities

- Silverdale has a deficit of parks and open space based on County's level of service standards.
- Open space could provide a sense of place that is perceived to be lacking in Silverdale.
- The CKCC site has good view of Dyes Inlet and surrounding landscape.
- Stormwater treatment on the site could be addressed through open space features

### Constraints

- Parks and open space do not generate revenue to financially support redevelopment of the site.
- More active park space can be expensive to develop.
