## Request for Qualifications Shoreline Bulkhead Removal and Restoration

**Response Due: Friday November 15, 2024 @ 3:00 PM**

### Services

Kitsap County Department of Community Development (DCD), Shore Friendly Kitsap is seeking to enter into a professional contract for **the feasibility and design** of a shoreline armor removal and ecological restoration on a privately owned property. The project will benefit forage fish spawning, juvenile chinook, chum and other nearshore migratory salmon habitat. This design project is a partnership between Kitsap County, the Suquamish Tribe, and the Landowner. The Tribe is providing Environmental Protection Agency (EPA) / Puget Sound Partnership (PSP) Implementation funding for this work.

### Project Description

- This design project is a collaborative effort between Kitsap County, the Suquamish Tribe, and Landowner to design a voluntary, shoreline restoration project on the Landowner's private shoreline. The project site is a private parcel southeast of Liberty Bay and nearby Point Bolin within the Port Madison Reservation. The currently armored shoreline extends approximately 100 linear feet with a timber soldier pile wall that is partially creosote treated. The bulkhead is adjacent to a tidal embayment and wetland complex with high nearshore habitat value. The project site has been identified by the West Sound nearshore tool as a Tier 4 restoration opportunity. The County project manager maintains frequent communication with the Landowner, and the Landowner has indicated willingness for this project to proceed and has signed a Temporary Access Easement Agreement. Throughout the design process, the County project manager will facilitate communication between the Landowner, the chosen consultant and the Tribe.
- To date a coastal geological memo on bulkhead removal feasibility has been completed. A completed cultural resources survey has indicated no cultural resource findings. The cultural resources survey report recommends that an Inadvertent Discovery Plan be in place and a copy be included with all permits. The property boundary has been surveyed on the eastern property line. (Reports are available upon request).

The **objectives** are to design a restoration project that:

1. Removes the soldier pile bulkhead and restores natural sediment and transport (beach) processes and marine riparian habitat, while providing for homeowner waterfront access and use.
2. Uses 'soft-shore alternatives' for shore protection only *when necessary and appropriate*. Soft shore techniques will follow the Marine Shoreline Design Guidelines (MSDG, 2014).

Might also include engineered wing-walls (i.e. return wall) if necessary to protect neighboring properties.

3. Includes a native (plants) planting plan for the marine riparian buffer suitable for the nearshore habitat type.

### **Scope of Services**

These services include:

- Development of a Quality Assurance Project Plan (QAPP) for the collection of all survey and design data that meets the standards and approval of the Northwest Indian Fisheries Commission (NWIFC) and Environmental Protection Agency (EPA).
- Feasibility and alternatives analysis. Feasibility will include other necessary investigations and reports such as coastal geotechnical, wind-wave analysis, wetlands and habitat assessments to support a rigorous alternatives analysis. The alternatives analysis will present at minimum three alternatives at the conceptual level including plan view drawings and relative cost estimates and evaluate for the preferred design. The analysis will follow standards set forth in RCO Manual 18 (2023). Basis of Design (BOD) report per RCO Manual 18 (2023) definition and standards for the bulkhead removal-shoreline restoration project. One draft BOD report will be submitted for County-team review before the report is finalized.
- The preferred design will include design sheets, construction quantities and a reasonable engineer's opinion of cost (EOC). The preferred design will be at minimum a 60% preliminary design level and permit ready. The design will be stamped by an engineer or engineering geologist. Any plans for wing-wall (bulkhead) design elements will be stamped by a professional engineer. If needed, up to two review cycles for the preferred design will be provided for the County project manager to submit feedback.
- Additional surveying for the shoreline area elevations and topography will be completed to enhance the existing licensed survey. This will be done to create an accurate base map for design.
- Investigation of outstanding geotechnical considerations needed for developing comprehensive design plans. Potential items to be addressed *if deemed necessary* might include soils, surface /ground water flow and analysis, borings etc. This geotechnical assessment/report may be included in the BOD's appendix.
- Meetings (in-person and virtual) with the Landowner and County project manager to discuss goals, conceptual designs, alternative design options and preferred option, and to gather feedback.
- Technical permitting support with Shore Friendly Kitsap as the lead for permit application submittals.

- Final design, specification and bid package for contractors. This phase will include reviewing and integrating feedback from regulators and stakeholders to bring the design to 100%. Updates will include the design sheets, final construction quantities, cost estimates, bid sheet, and specifications. A full bid package with technical specifications specific to project elements will also be completed.

### **Project Schedule**

Working with the County and Tribe project team and the Landowner will begin upon selection and will continue until the final design is complete with the anticipated completion date on or before June 1, 2026. Schedule milestones as follows:

- Feasibility and alternatives analysis report: June 30, 2025,
- Basis of Design and 60% preliminary designs: September 30, 2025
- Technical permitting support and Final Design: October 1, 2025 onwards

The final budget will be determined after the close of the RFQ based on the responses submitted.

### **Qualifications and Experience**

The experience required for a successful applicant is listed below:

- Demonstrated expertise in coastal restoration design and implementation.
- Demonstrated expertise in coastal processes, beaches, embayment, and estuarine dynamics.
- Demonstrated expertise in coastal geology and geotechnical engineering.

- Demonstrated expertise in working collaboratively with partners and clients in order to incorporate all parties' interests into the design.

**NOTE:**

***The County can provide the address location of the project site and supporting reports on request.***

**Consultant Selection Process**

*Kitsap County intends to select a consultant based on the qualifications and abilities of the firm and key staff. A team of County and Suquamish Tribal staff will evaluate the SOQs, and conduct interviews according to the consultant evaluation criteria and the three-part process described below:*

**Part 1**

*Evaluation of the written Statement of Qualification (SOQ) package submitted by each Proposer resulting in a short-listing of Proposers who will be invited to an interview.*

**Part 2**

*Phone or in person interviews will be conducted. Proposers will be evaluated on the interview in addition to the SOQ.*

**Part 3**

*The County's evaluation team makes a recommendation to the Community Development Director to obtain approval to begin negotiations with the selected Proposer. Contract negotiations shall then commence with the selected Proposer. Proposers not selected will be notified in writing of the selection outcome. If the selected Proposer and the County are unable to agree on the final scope and fee for the design services for the contract, the County reserves the right to terminate the negotiations with the selected Proposer and initiate contract negotiations with the next highest rated Proposer.*

**Interviews**

Following evaluation of the SOQ's, the highest-ranking firms will be invited to participate in the interview process. The County will notify proposers as soon as possible for scheduling of interviews. The project manager will schedule interviews with the contact person provided in the SOQ. Additional interview information shall be provided at the time of the invitation. The intent of the interviews is to help clarify and verify information provided in the SOQ and to give the evaluation team an opportunity to meet the project manager and key personnel to learn more about their relevant experience and expertise.

The County team, at its sole discretion, may choose to skip the interview process and go straight to negotiations based on the strength of a written proposal alone.

### **Contract Negotiation Process**

*Contract negotiations will begin immediately after the selection process is complete. A standard Kitsap County professional services agreement will be utilized for this project. This will be a "Fixed Fee" Contract.*

### **SOQ Submittal and General Guidelines**

To be considered responsive to this RFQ, the Proposers SOQ must follow the directions presented and include the information required below.

Submit one (1) original (containing original signatures) and 3, individually bound copies of the SOQ. Provide clear distinction between the original SOQ and the copies. Proposers are strongly encouraged to use recycled/recyclable products and both sides of the paper whenever appropriate.

### **References**

References shall be used to verify the accuracy of information provided by the Proposer, which may affect the rating of the Proposer. Provide three recent references who may be contacted. In listing the references, include the name of the client, mailing address, telephone number, email address, contact person, and the specific work your firm did for the client. The County reserves the right to contact references other than those submitted by the respondent.

#### **SECTION 5. INDEMNIFICATION**

- 5.1. To the fullest extent permitted by law, the Contractor shall indemnify, defend, and hold harmless Kitsap County and its elected and appointed officials, officers, employees, and agents (collectively "Indemnitees") from and against all Claims resulting from or arising

out of the performance of the Contract, whether such Claims arise from the acts, errors, or omissions of the Contractor, its Personnel, third parties, or Kitsap County, or anyone directly or indirectly employed by any of them or anyone for whose acts, errors, or omissions any of them may be liable. It is the specific intent of the parties that the Indemnitees shall, in all instances, except Claims arising from the sole negligence or willful misconduct of the Indemnitees, be indemnified by the Contractor from and against any and all Claims.

- 5.2. With regard to any Claim against any Indemnitee by any of the Contractor's Personnel, or anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the Contractor's indemnification obligation shall not be limited in any way by a limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor or Contractor's Personnel under workers compensation acts, disability benefit acts, or other employee benefit acts. Solely for the purposes of this indemnification provision, the Contractor expressly waives its immunity under Title 51 RCW (Industrial Insurance) and acknowledges this waiver was mutually negotiated by the parties.
- 5.3. Architectural, Landscape Architectural, Engineering, or Land Surveying Services. Should a court of competent jurisdiction determine the Contract is subject to RCW 4.24.115, then, in the event of liability for damages arising out of bodily injury to persons or damages to property caused by or resulting from the concurrent negligence of the Contractor and the County, its officers, officials, employees, and agents, the Contractor's liability hereunder, including the duty and cost to defend, will be only to the extent of the Contractor's negligence.
- 5.4. Claim. "Claim" means all losses, claims, suits, actions, liabilities, damages, demands, judgments, settlements, expenses, fines, or other liabilities of any kind or nature whatsoever, including without limitation, all costs including costs of Claim processing, investigation, reasonable attorneys' fees, and damages, for any personal or bodily injury, sickness, disease, disability, or death, or loss or damage to tangible or intangible business or property, including the loss of use. Claim includes any infringement of copyright, patent, trademark, or other proprietary rights of any third parties arising out of Contract performance or use by the County of materials furnished or work performed under the Contract.
- 5.5. Obligations/Notice of Claim. The County will provide the Contractor notice of the assertion of liability by a third party that may give rise to a Claim by County against the Contractor based on the indemnity contained herein. The Contractor shall respond to the County's tender of defense of a claim in writing within fourteen (14) calendar days from the notice date, and will advise the County if the Contractor accepts or denies tender of the claim. The County may in its discretion withhold all or part of any payment due the Contractor under the Contract until the Contractor responds to such notice. The Contractor shall keep the County timely and fully informed through all stages of the defense and promptly respond to and comply with County's requests for information. The County at all times reserves the right, but has no obligation to participate in the defense and settlement of any Claim. Such participation shall not constitute a waiver of the Contractor's indemnity and defense obligations under the Contract. The Contractor shall not settle or compromise any Claim in any manner that imposes any obligations upon the County without the prior written consent of the County. The Contractor shall promptly advise the County of any occurrence or information known to the Contractor that could reasonably result in a Claim against the County. The violation of any provisions of this Section, including improper refusal to accept tender, is a material breach.

## SECTION 6. INSURANCE

- 6.1. Minimum Insurance Required. The Contractor and its subcontractors, if any, shall procure and maintain, until all of the Contract obligations have been fully discharged, including any warranty period, all insurance required in this Section with an insurance company duly licensed in Washington State with an A.M. Best Company ratings of not less than A-VIII and a category rating of not less than "8", with policies and forms satisfactory to the County. Use of alternative insurers requires prior written approval from the County. Coverage limits shall be at minimum the limits identified in this Section, or the limits available under the policies maintained by the Contractor without regard to the Contract, whichever is greater.
- 6.2. Professional Liability. Not less than \$1,000,000 per claim and \$2,000,000 annual aggregate. Coverage will apply to liability for professional error, act or omission arising out of or in connection with the Contractor's Services under the Contract. The coverage shall not exclude bodily injury, property damage or hazards related to the work rendered as part of the Contract or within the scope of the Contractor's services under the Contract, including testing, monitoring, measuring operations or laboratory analysis where such Services are rendered under the Contract.
- 6.3. Commercial General Liability ("CGL"). Not less than \$1,000,000 per occurrence and \$2,000,000 annual aggregate. Coverage shall include personal injury, bodily injury, and property damage for premise-operations liability, products/completed operations, personal/advertising injury, contractual liability, independent contractor liability, and stop gap/employer's liability. Coverage shall not exclude or contain sub-limits less than the minimum limits required herein, without the prior written approval of the County. The certificate of insurance for the CGL policy shall expressly cover the indemnification obligations required by the Contract.
- 6.4. Automobile Liability.
- Contractor shall maintain personal automobile insurance on all vehicles used for Contract purposes as required by law.
  - Not less than \$100,000 per occurrence and \$300,000 annual aggregate. If a personal automobile liability policy is used to meet this requirement, it must include a business rider and cover each vehicle to be used in the performance of the Contract. If Contractor will use non-owned vehicles in performance of the Contract, the coverage shall include owned, hired, and non-owned automobiles.
  - Not less than \$1,000,000 per occurrence and \$2,000,000 annual aggregate. Coverage shall include liability for any and all owned, hired, and non-owned vehicles. Coverage may be satisfied with an endorsement to the CGL policy.
- 6.5. Umbrella or Excess Liability. The Contractor may satisfy the minimum liability limits required for the CGL and Automobile Liability under an Umbrella or Excess Liability policy. There is no minimum per occurrence limit of liability under the Umbrella or Excess Liability; however, the annual aggregate limit shall not be less than the highest "Each Occurrence" limit for either CGL or Automobile Liability. The Contractor agrees to an endorsement naming the County as an additional insured as provided in this Section, unless the Umbrella or Excess Liability provides coverage on a "Follow-Form" basis.

- 6.6. Workers' Compensation and Employer Liability. If applicable, the Contractor shall maintain workers' compensation insurance as required under the Title 51 RCW (Industrial Insurance), for all Contractor's Personnel eligible for such coverage. If the Contract is for over \$50,000, then the Contractor shall also maintain employer liability coverage with a limit of not less than \$1,000,000.
- 6.7. Primary, Non-Contributory Insurance/Subcontractors. The Contractor's and its subcontractors' insurance policies and additional named insured endorsements will provide primary insurance coverage and be non-contributory. Any insurance or self-insurance programs maintained or participated in by the County will be excess and not contributory to such insurance policies. All Contractor's and its subcontractors' liability insurance policies must be endorsed to show as primary coverage. The Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All subcontractors shall comply with all insurance and indemnification requirements herein.
- 6.8. Review of Policy Provisions. Upon request, the Contractor shall provide a full and complete copy of all requested insurance policies to the County. The County reserves the right without limitation, but has no obligation to revise any insurance requirement, or to reject any insurance policies that fail to meet the requirements of the Contract. The County also has the right, but no obligation to review and reject any proposed insurer providing coverage based upon the insurer's financial condition or licensing status in Washington. The County has the right to request and review the self-insurance retention limits and deductibles, and the Contractor's most recent annual financial reports and audited financial statements, as conditions of approval. Failure to demand evidence of full compliance with the insurance requirements or failure to identify any insurance deficiency shall not relieve the Contractor from, nor be construed or deemed a waiver, of its obligation to maintain all the required insurance at all times as required herein.
- 6.9. Waiver of Subrogation. In consideration of the Contract award, the Contractor agrees to waive all rights of subrogation against the County, its elected and appointed officials, officers, employees, and agents. This waiver does not apply to any policy that includes a condition that expressly prohibits waiver of subrogation by the insured or that voids coverage should the Contractor enter into a waiver of subrogation on a pre-loss basis.
- 6.10. Additional Insured, Endorsement and Certificate of Insurance. All required insurance coverage, other than the workers' compensation and professional liability, shall name the County, its elected and appointed officials, officers, employees, and agents, as additional insureds and be properly endorsed for the full available limits of coverage maintained by Contractor and its subcontractors. Endorsement is not required if the Contractor is a self-insured government entity, or insured through a government risk pool authorized by Washington State.

The Certificate of Insurance and endorsement shall identify the Contract number and shall require not less than thirty (30) days' prior notice of termination, cancellation, nonrenewal or reduction in coverage. At the time of execution, the Contractor shall provide the Certificate of Insurance, endorsement, and all insurance notices to: Risk Management Division, Kitsap County Department of Administrative Services, 614 Division Street, MS-7, Port Orchard, Washington 98366.

- 6.11. General. The coverage limits identified herein are minimum requirements only and will not in any manner limit or qualify the liabilities or obligations of the Contractor under the Contract. All insurance policy deductibles and self-insured retentions for policies maintained under the Contract shall be paid by the Contractor. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the County, its elected and appointed officials, officers, employees, or agents. The Contractor's insurance shall apply separately to each insured against whom a claim is made or suit is brought, subject to the limits of the insurer's liability.
- 6.12. Claims-Made. If the Contractor's liability coverage is written as a claims-made policy, the Contractor shall purchase an extended-reporting period or "tail" coverage for a minimum of three (3) years following completion of the performance or attempted performance of the provisions of this Contract.

- 9.2. Confidential Information/Breach. The Contractor shall ensure that all personal identifying information, financial information, and other information submitted or made available to the Contractor by, or on behalf of, the County, or acquired or developed by the Contractor in the performance of the Contract (unless publicly available) is kept confidential, secured, and protected to prevent unauthorized access. - 10.5. Public Records. The Contractor agrees that the Contract and all records associated with the Contract shall be available to the County for inspection and copying by the public pursuant to the Public Records Act, Chapter 42.56 RCW ("Act"). If the County determines that records in the custody of the Contractor are needed to respond to a request under the Act, the Contractor shall make all such records promptly available to the County at no cost to the County. With the exception of the Contract, if the Contractor considers any portion of any record, electronic or hard copy, to be protected from disclosure under the Act, the Contractor shall clearly identify all specific information it claims to be confidential or proprietary. If the County receives a request under the Act to inspect or copy proprietary information that has been identified by the Contractor as protected from disclosure and the County determines that release of the information is required by the Act or otherwise appropriate, the County's sole obligation will be to make a reasonable effort to notify the Contractor of the request and the date that such protected information will be released unless the Contractor obtains a court order to enjoin disclosure pursuant to RCW 42.56.540. If the Contractor fails to timely obtain a court order enjoining disclosure, the County will release the requested information on the date specified. The County has no obligation on behalf of the Contractor to claim any exemption from disclosure under the Act. The County will not be liable to the Contractor for releasing records pursuant to the Act.
- 10.6. Advertising, Logo. The Contractor shall not use, advertise, or promote for commercial benefit information concerning the Contract or use any trade name, trademark, or logo of the County, without the County's prior written consent.

- 10.7. Audit and Record Retention. The Contractor and its Personnel shall retain all books, documents, and records relating to performance of the Contract and Services provided in connection with this Contract for six (6) years after completion of the Contract or longer if requested by the County. All records shall be subject to inspection and audit by the County. Upon request, the Contractor shall promptly make available to the County a legible copy of all books, documents, and records at no cost to the County.

## **SECTION 11. RIGHTS AND REMEDIES**

- 11.1. Failure to Perform. If County determines the Contractor has failed to perform any material obligation of the Contract, and such failure has not been cured within ten (10) days' following notice from the County, the County may without penalty, in its discretion, withhold all monies due the Contractor until such failure is cured to the reasonable satisfaction of the County.
- 11.2. Right of Assurance. If the County in good faith has reason to believe the Contractor does not intend, or is unable to perform, or continue performing under the Contract, the County may demand in writing that the Contractor give a written assurance of intent to perform. Should the Contractor fail to provide adequate assurance to the reasonable satisfaction of the County, by the date specified the demand, the County may terminate all or part of the Contract and pursue all other rights and remedies available at law and in equity.
- 11.3. Responsibility for Errors. All Services shall be completed to the reasonable satisfaction of the County and as required herein. Upon request, the Contractor shall provide any clarifications and/or explanations regarding any Services provided as required by the County, at no additional cost to the County. In the event of an error or omission under the Contract, the Contractor shall, at no cost to the County, provide all necessary design drawings, estimates, and all other professional services the County deems necessary to rectify and correct the matter to the satisfaction of the County. The Contractor shall continue to be responsible for the accuracy of Services, even after the Work is accepted by the County and the termination or expiration of the Contract.
- 11.4. Remedies. All County rights and remedies under the Contract are in addition to, and shall in no way limit, any other rights and remedies that may be available to the County at law and in equity.
- 11.5. Right of Off-Set; Reimbursement. The County will be entitled to offset against any sums due the Contractor and to reimbursement from the Contractor for any damages, expenses, or costs incurred by the County due to the Contractor's nonconforming performance or failure to perform the Services under the Contract.
- 11.6. Waiver. Either party's failure to insist upon the strict performance of any provision of the Contract, or to exercise any right based upon a breach thereof or the acceptance of any performance during such breach, will not constitute a waiver of any right or remedy under the Contract unless expressly so agreed in writing by an authorized representative.
- 11.7. Breach. In the event of a material breach by the Contractor, the County may procure, on terms and in the manner that it deems appropriate, Services to replace those under the Contract. The Contractor shall be liable to the County for any and all costs, expenses, penalties, and fees incurred by the County in procuring such Services in substitution for those due from the Contractor under the Contract.
