

ADDENDUM NO. 1 INVITATION FOR BID 2026-028 KITSAP COUNTY

TO: All Respondents

FROM: Glen McNeill. Purchasing Supervisor

CLOSING DATE: Wednesday **08/26/2026 @2:00 pm**

REF NO.: **2026-028 RFQ Hydraulic Modeling Services**

DATE: 08/18/2026

This first addendum to RFQ 2026-028 RFQ Hydraulic Modeling Services answers questions that have been received.

- The due date listed in 4.1 Communications is August 28th, 2026, and the due date listed in 4.2 Procurement Schedule is August 26th, 2026. Can you clarify which is the correct due date for our submission?

The official closing date for this RFQ is August 26, 2026, at 2:00 PM

- Could the County please confirm whether it prefers that the hydraulic model remain in its current platform or is open to alternative software platforms?

The County is amenable to alternative software applications. If shortlisted for an interview, please note any proposed alternative applications during the interview.

- Could the County please provide additional information about flow monitoring that has been completed or is currently being conducted within the Central Kitsap Basin?

The County does not currently have flow monitoring equipment in place for the gravity conveyance system. Many of the larger and newer lift stations meter outflow.

- Will the County allow the consultant to have one member of the team join the interview remotely?

Remote participation can be accommodated but not advised for primary lead roles.

- If a proposer wishes to request modifications to the sample contract language, could the County please clarify how those proposed revisions should be submitted as part of the SOQ process?

An Exceptions and Assumptions form is posted as a separate attachment on the Kitsap County Bids Page to be returned with your bid package. However, please keep in mind that a Bid that takes exception or deviation to any material requirement of the Contract may be rejected.

END OF ADDENDUM NO. 1
