RE: Permit Number: 23-00729
Project Name: DISNEY - Large Lot Land Subdivision Preliminary LL# 452
Type of Application: P LL

The Kitsap County Department of Community Development has **APPROVED** the land use application for # **23-00729 DISNEY - Large Lot Land Subdivision Preliminary LL# 452 – P LL**, subject to the conditions outlined in this Notice and included Staff Report.

THE DECISION OF THE DEPARTMENT IS FINAL, UNLESS TIMELY APPEALED TO THE KITSAP COUNTY HEARING EXAMINER ON OR BEFORE 14 DAYS FROM THE DATE OF DECISION PER KITSAP COUNTY CODE 21.04.290.

The written appeal shall be made on, or attached to, an appeal form titled: *'Appeal/Objection of an Administrative Decision'* found on DCD's website, through the Online Permit Application Portal: <https://app.oncamino.com/kitsapcounty/login>.

Please note affected property owners may request a change in valuation for property tax purposes, notwithstanding any program of revaluation. Please contact the Assessor's Office at 360-337-5777 to determine if a change in valuation is applicable due to the issued Decision.

The complete case file is available for review by contacting the Department of Community Development; if you wish to view the case file or have other questions, please contact help@kitsap1.com or (360) 337-5777.

RE: Large Lot Subdivision #452 – Disney-Alpine Meadows
Permit No. 23-00729
Tax Account No. 082201-4-051-2001

Dear Applicant:

This is to inform you that the above-referenced large lot subdivision has been granted preliminary approval.

This decision is in compliance with Kitsap County Code 21.04 Land Use and Development Procedures. All applicable criteria have been met for preliminary large lot subdivision in accordance with Kitsap County Code Title 16.52 large lot subdivision.

The Department has further determined that the land segregation as it is presented in the preliminary large lot subdivision, received 09/07/2023 by the Department of Community Development, conforms or will conform subject to conditions set forth in this letter, to the following:

1. Kitsap County Code Title 17 Zoning;
2. Kitsap County Code Title 12 Storm Water Drainage;
3. Kitsap County Comprehensive Plan and subarea plans;
4. Kitsap County Critical Areas Ordinance;
5. And all other elements of the Kitsap County Code that pertain to this land segregation.

Approval is subject to the following conditions:

LAND USE

1. Adhere to all elements and requirements set forth in Kitsap County Code 16.52.
2. The following condition shall be added to the face of the final large lot subdivision: Building permits issued on a lot in this large lot subdivision may be subject to impact fees pursuant to Kitsap County Code.
3. The names of the roads in this land segregation shall be approved by Community Development prior to final subdivision approval.
4. All required permits shall be obtained prior to commencement of land clearing, construction and/or occupancy.

5. The decision set forth herein is based upon representations made and exhibits contained in the project application (23-00729). Any change(s) or deviation(s) in such plans, proposals, or conditions of approval imposed shall be subject to further review and approval of the County and potentially the Hearing Examiner.
6. The authorization granted herein is subject to all applicable federal, state, and local laws, regulations, and ordinances. Compliance with such laws, regulations, and ordinances is a condition to the approvals granted and is a continuing requirement of such approvals. By accepting this/these approvals, the applicant represents that the development and activities allowed will comply with such laws, regulations, and ordinances. If, during the term of the approval granted, the development and activities permitted do not comply with such laws, regulations, or ordinances, the applicant agrees to promptly bring such development or activities into compliance.

SURVEY

1. At the time of submittal of the final large lot subdivision a title certificate, current to within 30 days, is required. Please note or delineate on the face of the final large lot subdivision all pertinent special exception items in Schedule “B” of the title certificate.
2. Proof of rights of use of the easement shown as providing access to the subject property shall be submitted with the Final Plat application materials.
3. A Final Short/Large Lot/Subdivision Plat shall be prepared by a licensed Land Surveyor in compliance with KCC Title 16.
4. A Road Maintenance Agreement will be required for the access easement shown on the face of the plat. This may be in the form of a note on the face of the Final Plat that addresses ownership and maintenance responsibilities of the access easement, or in the form of a Road Maintenance Agreement document to be recorded separately and referenced on the face of the Final Plat.

STORMWATER

1. Construction plans and profiles for all roads, storm drainage facilities and appurtenances prepared by the developer’s engineer shall be submitted to Kitsap County for review and acceptance. No construction shall be started prior to said plan acceptance.
2. Approval of the preliminary plat shall not be construed to mean approval of the total number of lots or configuration of the lots and tracts. These parameters may be required to be revised for the final design to meet all requirements of Kitsap County Code Titles 11 and 12.
3. The information provided demonstrates this proposal is a Large Project as defined in Kitsap County Code Title 12 and as such will require a Full Drainage Site Development Activity Permit (SDAP) from Development Services and Engineering.

4. Stormwater quantity control, quality treatment, and erosion and sedimentation control shall be designed in accordance with Kitsap County Code Title 12 effective at the time this permit application was deemed fully complete. The submittal documents shall be prepared by a civil engineer licensed in the State of Washington. The fees and submittal requirements shall be in accordance with Kitsap County Code in effect at the time of SDAP application.
5. Any project that includes off-site improvements that create additional hard surface such as lane widening, sidewalk or shoulder installation or intersection channelization shall provide stormwater mitigation in accordance with Kitsap County Code Title 12 effective at the time this permit application was deemed fully complete.
6. A Hydraulic Project Approval (HPA) permit may be required for work below the ordinary high-water mark or associated with the outfall. Prior to SDAP approval, the applicant shall submit an approved HPA from the Washington Department of Fish and Wildlife (WDFW), or documentation from WDFW specifying that a HPA is not required. Information regarding HPA's can be found at <https://wdfw.wa.gov/licenses/environmental/hpa> or by calling the Aquatic Protection Permitting System at (360) 902-2422.
7. The site plan indicates that greater than 1 acre will be disturbed during construction. This threshold requires a National Pollutant Discharge Elimination System (NPDES) Stormwater Construction permit from the State Department of Ecology. More information about this permit can be found at: <http://www.ecy.wa.gov/programs/wq/stormwater/construction/html> or by calling Josh Klimek at (360) 407-7451, email joshklimek@ecy.wa.gov. This permit is required prior to issuance of the SDAP. Processing time for NPDES permit is a minimum of 37 days.
8. The application indicates that a significant quantity of grading material will be exported from the site. Prior to issuing the SDAP, an approved fill site(s) must be identified. Any fill site receiving 150 cubic yards or more of material must obtain an SDAP. Fill sites receiving 5,000 cubic yards or more, or located within a critical area, must have an engineered SDAP. For any fill site receiving less than 150 cubic yards, the SDAP holder shall submit to Kitsap County Department of Community Development load slips indicate the location of the receiving site and the quantity of the material received by said site.
9. The application indicates that a significant quantity of grading material will be imported to and/or exported from the site. Typically, this means five or more trucks entering/leaving the site per hour. Because of this a vehicle wheel wash must be included as an element of the siltation erosion control plan.
10. The design of the infiltration facilities shall be in accordance with Vol. II, Ch. 5 of the Kitsap County Stormwater Design Manual.

11. The impervious area per lot accounted for in the overall drainage facilities installed shall be indicated on the face of the final plat. Additional impervious surfaces created on an individual lot beyond the amount accounted for in the overall drainage facilities shall be mitigated in accordance with Kitsap County Code Title 12 and may require a Site Development Activity.
12. The following shall be added to the face of the Final Plat, under the heading Notes and Restrictions:
 - a. Maintenance of roof and yard drains and appurtenances shall be the responsibility of the individual homeowners.
 - b. All runoff from roof and yard drains must be directed so as not to adversely affect adjacent properties.
 - c. All lots are obligated to accept road drainage at the natural locations after the grading of streets is complete.
 - d. No owner or occupant may obstruct or re-channel the drainage flows after location and installation of drainage swales, storm sewers or storm drains. It is expressly understood that any alteration of the water flow shall be completed only after approval by Kitsap County Department of Community Development.
13. The following condition shall be added to the face of the Final Plat: At the time of submittal of a building permit for any lot within this plat, soil amendment is required for all disturbed areas not covered by hard surface.
14. The owner shall be responsible for maintenance of the storm drainage facilities for this development following construction. Before requesting final inspection for the SDAP for this development, the person or persons holding title to the subject property for which the storm drainage facilities were required shall record a Declaration of Covenant that guarantees the County that the system will be properly maintained. Wording must be included in the covenant that will allow the County to inspect the system and perform the necessary maintenance in the event the system is not performing properly. This would be done only after notifying the owner and giving him a reasonable time to do the necessary work. Should County forces be required to do the work, the owner will be billed the maximum amount allowed by law.
15. If the project proposal is modified from that shown on the site plan approved for this permit application, Development Engineering will require additional review and potentially new conditions.

TRAFFIC & ROADS

1. At building permit application, submit Kitsap County Public Works Form 1601 for issuance of a concurrency certificate, as required by Kitsap County Code 20.04.030, Transportation Concurrency.
2. Prior to recording the Final Plat, vehicular access shall be constructed to provide access to all proposed lots.

3. The following shall appear on the face of the Final Plat, under the heading Conditions:
 - a. All interior roads shall remain private. Should the applicant or his successors or assigns choose to dedicate these roads to Kitsap County, it shall be subject to a further review by Kitsap County Development Services and Engineering. All improvements necessary to bring said road to the then current Kitsap County standards shall be done, at no expense to the County, prior to being accepted into the Kitsap County Road system for maintenance.
 - b. All lots shall access from interior roads only.
4. All rights of access for adjoining properties currently in existence shall be preserved. Any amendment to the existing easement rights of adjoining property owners shall be properly executed and recorded prior to SDAP acceptance.
5. The Site Development Activity Permit shall include plans for construction of the road approach between the edge of existing pavement and the right-of-way line at all intersections with county rights-of-way. Approaches to county rights of way shall be designed in accordance with the Kitsap County Road Standards as established in Chapter 11.22 of the Kitsap County Code. Existing approaches may need to be improved to meet current standards.
6. Any work within the County right-of-way shall require a Public Works permit and possibly a maintenance or performance bond. This application to perform work in the right-of-way shall be submitted as part of the SDAP process. The need for and scope of bonding will be determined at that time.

ENVIRONMENTAL

1. Monitoring and maintenance of the planted area shall be conducted for five years, and extended, if necessary, after DCD staff approves planting. Monitoring includes live and dead vegetation counts and records of all maintenance activities. Maintenance activities can be defined as, but are not limited to, removal practices on invasive or nuisance vegetation and watering schedules. Monitoring information shall be summarized in a letter with photographs depicting conditions of the vegetation and overall site. Monitoring reports are due to Kitsap County Department of Community Development Services and Engineering Division annually. If more than 20 percent of the plantings do not survive within any of the monitoring years, the problem areas shall be replanted and provided with better maintenance practices to ensure higher plant survival. The construction of the permitted project is subject to inspections by the Kitsap County Department of Community Development. Extensions of the monitoring period may be required if original conditions are not met. All maintenance and construction must be done in full compliance with Kitsap County Code (KCC), including the Kitsap County Critical Area Ordinance (Title 19 KCC) and Shoreline Master Program (Title 22 KCC). Any corrections, changes or alterations required by a Kitsap County Development Engineer Inspector shall be made prior to additional inspections. Any assignment of savings, financial surety or other like

security for maintenance of the buffer mitigation plan shall only be released if monitoring requirements are satisfied in the final year of the monitoring term.

2. Vegetation planting shall occur as specified in the approved planting plan produced in support of this permit. Planting of native vegetation shall occur within the first dormant season once the permitted project has been constructed and approved. When planting is complete, the applicant must contact Development Service and Engineering Staff at (360)337-5777 for a site inspection and as-built approval. Monitoring and maintenance of the planted area shall be conducted for three years after DCD staff approves planting. Monitoring includes live and dead vegetation counts and records of all maintenance activities. Maintenance activities can be defined as, but are not limited to, removal practices on invasive or nuisance vegetation and watering schedules. Monitoring information shall be summarized in a letter with photographs depicting conditions of the vegetation and overall site. Monitoring reports are due to Kitsap County Department of Community Development Services and Engineering Division by December 31 of each monitoring year. If more than 20 percent of the plantings do not survive within any of the monitoring years, the problem areas shall be replanted and provided with better maintenance practices to ensure higher plant survival.
3. A 110-foot (Wetland A) and 40-foot (Wetland C) native vegetation buffer must be maintained along the delineated wetland boundaries as depicted on the approved site. In addition, a building or impervious surface setback line of 15 feet is required from the edge of the buffer.
4. Permit approval subject to chapter 19.150.170 of Kitsap County Code, which states that critical area ordinance (CAO) buffers shall remain undisturbed natural vegetation areas except where the buffer can be enhanced to improve its functional attributes. Refuse shall not be placed in buffers.
5. Prior to occupancy, the common boundary between the WETLAND buffers and the adjacent land shall be permanently identified with critical area buffer signs. Critical Area Ordinance (CAO) signs shall be placed along the designated boundary spaced appropriate distances apart, visual from sign to sign. Signs must be attached to existing trees with diameter breast height greater than 4 inches. Alternative methods include 4x4 posts, metal posts or split rail fencing. Signs are provided at issuance and installation of the signs is required prior to final inspection and Certificate of Occupancy (CO).
6. A landscape plan shall be submitted with the SDAP for review and approval and include wetlands and their buffers, the native vegetation buffer easement, a 25-foot perimeter No Cut Vegetation Buffer (NVB). Landscaping shall be installed and maintained in conformance with the requirements of Kitsap County Code (KCC) 17.500. Landscaping shall be installed and inspected prior to requesting a final inspection, or guaranteed by means of an assignment of funds or bonded in the amount of 150 percent of the cost of installation.

FIRE MARSHAL

1. Automatic fire sprinklers, as approved by the Kitsap County Fire Marshal, shall be installed throughout homes here and after constructed on lots created by this land division". Please identify if hydrants will be provided or note on the face of the final plat.

HEALTH DISTRICT

1. Final large lot approval will require that building site applications with well sites be submitted to the Health District for each proposed lot.

Preliminary approval of this large lot subdivision will automatically expire five (5) years from the date of this letter. However, upon written request to the Department of Community Development by the original applicant and the current owner(s) of the subject property, at least thirty (30) days prior to expiration, a six (6) month extension may be granted.

Preparation of the final large lot subdivision shall be done in accordance with Kitsap County Code 16.52. All applicable conditions of preliminary approval must be addressed with the submittal of final large lot subdivision application. Submittals that do not address all conditions will be considered incomplete and returned without review. All of the above relevant conditions and any/all building setbacks and buffers established as conditions of approval must appear on the final large lot subdivision.

If you have any questions or comments regarding this letter, please feel free to contact **Peggy Bakalarski** for Survey matters; **Veronica Robbins** for Stormwater and Traffic matters; **Jennifer Kreifels** for Land Use/Environmental matters; **Scott Austin** for Fire Marshal matters; all of whom can be reached at (360) 337-5777. Please contact **Christine Bronder** for Health District matters at (360) 337-5285.

Sincerely,

Peggy Bakalarski, Project Lead
