

Kitsap County Noxious Weed Control Program

FREE NOXIOUS WEED DISPOSAL

Free disposal is open through October or until budget has been reached.

How to Participate:

1

Safely bring noxious weeds to one of the participating facilities - see below.

Not sure if your weeds are *noxious*? [Check out our noxious weed list here.](#)

2

Let facility attendants know that you have noxious weeds to dispose of.

3

Attendants will ask for information including: Name, Phone Number or Email, Noxious Weed Species, and Address of the property the weeds were removed from.

Note: Entire load must be noxious weeds. Please do not mix with other waste, yard clippings, etc.

Participating Facilities

Olympic View Transfer Station

- Hard hat and high visibility vest required for mechanical tipping

Hansville, Olalla, and Silverdale Garbage & Recycling Facilities & Bainbridge Disposal

- Limit to one standard pickup load (8' bed) or less per day, per property
- Hand unload only
- These facilities have the right to turn loads away if capacity is reaching its maximum for the day

Remember to secure your load!

Bagged or loose, your load should be secured by tarp or net, or be subject to a \$10 unsecured load fee. This is especially important to prevent the spread of noxious weeds as they are moved from your property to the disposal facilities.
