 - E. The Contractor's insurance will apply separately to each insured against whom claim is made or suit is brought subject to the limits of the insurer's liability.

 - G. The insurance limits mandated for any insurance coverage required by the Contract are not intended to be an indication of exposure, nor are they limitations on indemnification.
-

- H. The Contractor will maintain all required policies in force from the time services commence until services are completed. Certificates, policies and endorsements scheduled to expire before completion of services will be renewed before expiration. If the Contractor's liability coverage is written as claims-made-policy, then the Contractor must evidence the purchase of an extended-reporting period or "tail" coverage for a three-year period after completion of the services.

The Contractor will furnish the County with properly executed certificates of insurance or a signed policy endorsement which will clearly evidence all insurance required in this Section before work under this Contract shall commence. The certificate shall, at a minimum, list limits of liability and coverage. The certificate will provide that the underlying insurance contract may not be canceled, or allowed to expire, except on 30-days' prior written notice to the County. Any certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended so as not to negate the intent of this provision.
- C. The Contractor will furnish the County with evidence that the additional-insured provision required above has been met. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured or a letter of self-insurance from a public entity risk pool which waives the requirement.
- D. Certificates of insurance will show the certificate holder as Kitsap County and indicate "care of" the appropriate County office or department. The address of the certificate holder will be shown as the current address of the appropriate County office or department.
- E. The Contractor will request that the Washington State Department of Labor and Industries, Workers Compensation Representative, send verification to the County that the Contractor is currently paying workers' compensation.
- F. **Evidence of such insurance**, as required above, shall be provided to the County at the following address:

Termination under this provision will be effective upon the date specified in the written notice of termination sent by the County to the Contractor. No costs incurred after the effective date of termination will be paid.
- 8.3 If the Contractor breaches any of its obligations under the Contract and fails to cure the breach within 10 days of written notice to do so by the County, the County may terminate the Contract. In that event, the County will pay the Contractor only for the costs of services accepted by the County. Upon such termination, the County, at its discretion, may obtain performance of the work elsewhere, and the Contractor will bear all costs and expenses incurred by the County in completing the work and all damages sustained by the County by reason of the Contractor's breach.

SECTION 9. ASSIGNMENT, DELEGATION AND SUBCONTRACTING

ATTACHMENT B: STATEMENT OF WORK

Kitsap Public Health District – Nurse Family Partnership

Background

In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of mental health and chemical dependency programs and services. In September 2013, the Kitsap County Board of Commissioners passed a resolution authorizing a sales and use tax for Mental Health, Chemical Dependency and Therapeutic Court Programs. The goal of this tax is to prevent and reduce the impacts of disabling chemical dependency and mental illness by creating and investing in effective, data-driven programs for a continuum of recovery-oriented systems of care.

Project Description

The Nurse Family Partnership (NFP) provides evidence-based, home visiting services to support pregnant people and parents of infants in Kitsap County, focusing on maternal and child health, mental health, substance use prevention, and parenting skills.

- Improve the health status and wellbeing of Kitsap County residents.
- Reduce the incidence and severity of chemical dependency and/or mental health disorders in adults and youth.
- Reduce the number of people in Kitsap County who use costly interventions including hospitals, emergency rooms, and crisis services.
- Reduce the number of chemically dependent and mentally ill youth and adults from initial or further criminal justice system involvement.
- Reduce the number of people in Kitsap County who cycle through the criminal justice systems, including jails and prisons.

This program will serve approximately 62 individuals and their families in a caseload of no greater than 25 clients per NFP public health nurse FTE as per the fidelity requirements of the national Nurse Family Partnership organization, Changent, at any point in time throughout the year. The MHCDC contract supports approximately 15-19 ongoing NFP clients, representing 20–25% of the agency's caseload.

Project Activities

Program activities include ongoing delivery of intensive Nurse-Family Partnership (NFP) home visiting services to high-risk, first-time mothers from pregnancy through the child's second year of life. Nurses conduct evidence-based assessments; provide mental

health, substance use, and domestic violence screenings; and implement behavioral health interventions supported by NFP's research-based curriculum. Activities include monitoring maternal and child health, facilitating behavior change through motivational interviewing and supportive coaching, and coordinating referrals to community mental health, chemical dependency, and social service partners. The team tracks retention, client progress, and improvement in behavioral health indicators and developmental outcomes.

The project also operates the Mama Moves weekly perinatal/postpartum support group, offering movement, mindfulness, and peer support to reduce isolation and strengthen emotional resiliency. Additionally, the bilingual Community Health Worker conducts targeted outreach and provides culturally responsive behavioral health navigation for Spanish-speaking, immigrant, and refugee families. These activities collectively advance early intervention goals, strengthen support systems for high-risk families, and improve pregnancy, parenting, and behavioral health outcomes.

Project Design

The Improving Health and Resiliency of High-Risk Mothers and Their Children project enhances Kitsap County's mental health and chemical dependency prevention and early intervention infrastructure by delivering the evidence-based Nurse-Family Partnership (NFP) home visiting program. NFP provides intensive, relationship-based services for low-income, first-time parents from early pregnancy through the child's second birthday. Registered nurses conduct regular home visits to build trust, support healthy pregnancies, and assess maternal behavioral health needs throughout the high-risk perinatal and postpartum periods. Nurses use validated mental health screening tools (PHQ-9, GAD-7, Maya Health Toolkit), substance use assessment (Health Habit Assessment), and evidence-based strategies such as motivational interviewing, stage-of-change techniques, perinatal mental health interventions, and the FAN attunement model* to identify risks and to support early intervention with goals of healthy behavior change. The MHCDTC contract supports approximately 15-19 ongoing NFP clients, representing 20–25% of the agency's caseload, who present with elevated needs related to mental health, substance use, trauma, or social stressors.

In addition to home visiting, the project delivers Mama Moves, a weekly movement, mindfulness, and peer-connection group that supports high-risk postpartum individuals experiencing mental health or chemical dependency related challenges. The program also includes bilingual (English/Spanish) Community Health Worker outreach, providing culturally responsive engagement for Spanish-speaking and immigrant/refugee families. The CHW offers behavioral health navigation, systems support, and linkage to chemical dependency and mental health services for both NFP clients and Pregnancy and Parenting Support Line callers. Together, these components strengthen Kitsap's early childhood behavioral health ecosystem by improving maternal wellbeing, supporting child development, and enhancing long-term family stability.

***FAN (Facilitating Attuned Interactions) Attunement Model:** a framework from the Erikson Institute's Fussy Baby Network that helps professionals working with young children and families build strong relationships by focusing on the parent's immediate concerns and cues, using five key stages: Feeling, Calming, Thinking (Collaborative Exploration), Doing, and Reflecting, to guide them in meeting families where they are, reducing provider burnout, and empowering parents. It emphasizes mindful self-regulation for providers and capacity building for parents, ensuring support is relevant and builds confidence. <https://amchp.org/wp-content/uploads/2021/12/FAN-Article-2.png>

Project Outcomes and Measurements

The contractor will participate in the Evaluation Plan for Treatment Sales Tax Programs. Programs or services implemented under the Treatment Sales Tax are reviewed by the Community Advisory Committee and monitored by the Human Services Department. The Contractor will have an evaluation plan with performance measures developed in partnership with Sound Within contracted Epidemiologist. The emphasis will be on capturing data at regular intervals that can be used to determine whether Treatment Sales Tax funded programs met expectations. Some common measures will be identified that will be reported on. Evaluation efforts must include standardized data collection and reporting processes that produce the following types of information:

- Quantity of services (outputs).
- Level of change occurring among participants (outcomes).
- Return-on-investment or cost-benefit (system savings) if evidence-based.
- Adherence to the model (fidelity).
- Common measures reported through Kitsap Public Health District

Data will be collected to monitor the following goals and objectives.

Goal 1: Improve Maternal and Infant Health Outcomes Through High-Quality Nurse Home Visiting

Focus

The Nurse Family Partnership program provides evidence-based nurse home visits to first-time mothers, supporting maternal health, infant development, and family stability from pregnancy through the child's second birthday. Nurses deliver trauma-informed care and early identification of risks including SUD, MH, and DV.

Objectives

1. Deliver consistent, high-quality home visiting services.
2. Identify maternal, infant, and environmental needs early and provide education and support.
3. Align with or exceed WA state and national retention rate targets for Pregnancy [85%], Infancy: [65%], Toddlerhood: [55%], and Graduation: [42%]

Metrics are Reported as Program Overall - (Program Overall = 2.5 NFP Public Health Nurse FTE plus NFP Supervisor)

Goal 2: Strengthen Behavioral Health Identification, Intervention, and Long-Term Outcomes

Focus

NFP nurses are trained in mental health, SUD, DV, and parenting support, positioning them to identify behavioral health challenges early and provide culturally responsive, trauma-informed care. This goal focuses on improved detection, referral, and long-term improvement across multiple behavioral health domains.

Objectives

1. Conduct routine SUD and MH screenings using validated tools.
2. Provide referrals, follow-up, and coordinated care for clients with SUD, MH, and DV needs.
3. Support long-term behavioral health improvements through education and ongoing coaching.
4. Monitor changes in behavioral health, substance use, risk and protective factors from intake to graduation and from graduation to post graduation 5 years.
5. Utilize KBS scores [**1-2 point improvement target**] to show clients with identified SUD or MH improvement in knowledge and behavior (5-year outcomes)

Metrics

Five-Year Graduation Outcome Metrics

(All reflect past five years of NFP outcomes) KBS is based on the Omaha System

KBS Score Data will be presented annually for those graduated as:

YTD only

- Per cent of unduplicated individuals who screened as “high probability” for interpersonal violence (IPV) in a relationship annually YTD:
- Percent of screenings performed (not unduplicated) that showed “high probability” for interpersonal violence (IPV) in a relationship annually YTD:
- Average KBS Rating Change for Mental Health over 5 years:
- Average KBS Rating Change for Substance Use over 5 years:
- Average KBS Rating Change for Caretaking and Parenting Problems over 5 years:
- Number of graduated clients over the 5 years:
- Percentage of Screenings Performed for graduated clients to include:
 - PHQ 9:
 - GAD 7:
 - STAR:

(Numerator = Total Number Performed over the 5 years for graduated clients)

(Denominator = 5 recommended opportunities x the number of graduated clients)

Concepts	1	2	3	4	5
Knowledge: Ability of the client to remember and interpret information	No knowledge	Minimal knowledge	Basic knowledge	Adequate knowledge	Superior knowledge
Behavior: Observable responses, actions, or activities of the client fitting the occasion or purpose	Not appropriate behavior	Rarely appropriate behavior	Inconsistently appropriate behavior	Usually appropriate behavior	Consistently appropriate behavior
Status: Condition of the client in relation to objective and subjective defining characteristics	Extreme signs/symptoms	Severe signs/symptoms	Moderate signs/symptoms	Minimal signs/symptoms	No signs/symptoms

In the Nurse-Family Partnership (NFP) system, Knowledge, Behavior, and Status (KBS) metrics are longitudinal, 5-point Likert scale measurements used to evaluate improvements in maternal caretaking and parenting. These metrics assess changes in client health, behaviors, and conditions between admission and discharge.

Key Aspects of KBS Metrics in NFP:

- **Target Areas:** KBS metrics specifically track improvements in parenting skills, maternal caretaking, and child health outcomes.
- **Measurement Scale:** The metrics are scored on a 5-point scale (often within the Omaha System framework), tracking changes from admission to discharge.
- **Clinical Significance:** These metrics allow nurses to track meaningful changes, such as reductions in smoking during pregnancy, increased breastfeeding, improved child immunization, and enhanced parental mental health including substance use prevalence and/or cessation.
- **Data Utilization:** Data collected via KBS helps evaluate the effectiveness of the home visits and the overall impact of the program on high-risk families.
- **Evidence-Based Focus:** KBS aligns with NFP's core goals to improve maternal health, child development, and economic self-sufficiency.

KBS measures are crucial for demonstrating the program's impact, with studies using them to identify significant positive changes in family health and behavior over time.

Problem Rating Scale for Outcomes

The Problem Rating Scale for Outcomes is a method to evaluate client progress throughout the period of service. It consists of three five-point, Likert-type scales to measure the entire

Contracted Party Notice

Enduris Washington is a joint self-insurance program for public entities authorized by RCW 48.62.

Under RCW 48.62.061, the state risk manager shall adopt rules governing the management and operation of both individual and joint local government self-insurance programs covering property or liability risks. The rules are contained in the Washington Administrative Code (WAC) 200-100 and summarized as follows:

- Only members who sign the interlocal agreement binding them to contributions and assessments may participate in a local government risk pool (WAC 200-100-020).
- Only members may participate in the self-insured retention layer, and only members may participate in the joint purchase of insurance or reinsurance (WAC 200-100-02005).
- Nonmembers shall not participate in any coverages of the joint self-insurance program including the self-insured retention layer and the excess insurance or reinsurance layer (WAC 200-100-02007).

The state risk manager and the Washington Administrative Code prohibit Enduris of Washington from granting additional insured status to nonmembers.

However, Enduris can cover the contractual liability undertaken by its members in most cases. As long as the contract between an Enduris member and a third party qualifies as a “member contract” and the claims against the indemnitee third party are otherwise covered by the terms of the Memorandum of Coverage, the member district’s indemnity obligation should also be covered.

Enduris Washington’s memorandum of coverage (MOC) contains the definition of a “member contract” as follows:

SECTION IV – DEFINITIONS

[...]

O. Member Contract means a written contract that satisfies all of the following:

1. The agreement pertains to the Named Member's routine governmental operations, including professional services and mutual aid agreements, and by the contract terms the Named Member assumes the Tort liability of another to pay damages because of Bodily Injury or Property Damage to a third person or organization, or with respect to Professional Services to pay damages because of Public Officials Errors and Omissions to a third person or organization, and;
2. The agreement was entered into prior to the damage for which a claim is made.

Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.
