## SECTION 5. INDEMNIFICATION

- 5.1. To the fullest extent permitted by law, the Contractor shall indemnify, defend, and hold harmless Kitsap County and its elected and appointed officials, officers, employees, and agents (collectively "Indemnitees") from and against all Claims resulting from or arising out of the performance of the Contract, whether such Claims arise from the acts, errors, or omissions of the Contractor, its Personnel, third parties, or Kitsap County, or anyone directly or indirectly employed by any of them or anyone for whose acts, errors, or omissions any of them may be liable. It is the specific intent of the parties that the Indemnitees shall, in all instances, except Claims arising from the sole negligence or willful misconduct of the Indemnitees, be indemnified by the Contractor from and against any and all Claims.
- 5.2. With regard to any Claim against any Indemnitee by any of the Contractor's Personnel, or anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the Contractor's indemnification obligation shall not be limited in any way by a limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor or Contractor's Personnel under workers compensation acts, disability benefit acts, or other employee benefit acts. Solely for the purposes of this indemnification provision, the Contractor expressly waives its immunity under Title 51 RCW (Industrial Insurance) and acknowledges this waiver was mutually negotiated by the parties.
- 5.3. Architectural, Landscape Architectural, Engineering, or Land Surveying Services. Should a court of competent jurisdiction determine the Contract is subject to RCW 4.24.115, then, in the event of liability for damages arising out of bodily injury to persons or damages to property caused by or resulting from the concurrent negligence of the Contractor and the County, its officers, officials, employees, and agents, the Contractor's liability hereunder, including the duty and cost to defend, will be only to the extent of the Contractor's negligence.
- 5.4. Claim. "Claim" means all losses, claims, suits, actions, liabilities, damages, demands, judgments, settlements, expenses, fines, or other liabilities of any kind or nature whatsoever, including without limitation, all costs including costs of Claim processing, investigation, reasonable attorneys' fees, and damages, for any personal or bodily injury, sickness, disease, disability, or death, or loss or damage to tangible or intangible business or property, including the loss of use. Claim includes any infringement of copyright, patent, trademark, or other proprietary rights of any third parties arising out of Contract performance or use by the County of materials furnished or work performed under the Contract.
- 5.5. Obligations/Notice of Claim. The County will provide the Contractor notice of the assertion of liability by a third party that may give rise to a Claim by County against the Contractor based on the indemnity contained herein. The Contractor shall respond to the County's tender of defense of a claim in writing within fourteen (14) calendar days from the notice date, and will advise the County if the Contractor accepts or denies tender of the claim. The County may in its discretion withhold all or part of any payment due the Contractor under the Contract until the Contractor responds to such notice. The Contractor shall keep the County timely and fully informed through all stages of the defense and promptly respond to and comply with County's requests for information. The County at all times reserves the right, but has no obligation to participate in the defense and settlement of any Claim. Such participation shall not constitute a waiver of the Contractor's indemnity and defense obligations under the Contract. The Contractor shall not settle or compromise any

Claim in any manner that imposes any obligations upon the County without the prior written consent of the County. The Contractor shall promptly advise the County of any occurrence or information known to the Contractor that could reasonably result in a Claim against the County. The violation of any provisions of this Section, including improper refusal to accept tender, is a material breach.

## **SECTION 6. INSURANCE**

- 6.1. Minimum Insurance Required. The Contractor and its subcontractors, if any, shall procure and maintain, until all of the Contract obligations have been fully discharged, including any warranty period, all insurance required in this Section with an insurance company duly licensed in Washington State with an A.M. Best Company ratings of not less than A-VIII and a category rating of not less than "8", with policies and forms satisfactory to the County. Use of alternative insurers requires prior written approval from the County. Coverage limits shall be at minimum the limits identified in this Section, or the limits available under the policies maintained by the Contractor without regard to the Contract, whichever is greater.
- 6.2. Professional Liability. Not less than \$1,000,000 per claim and \$2,000,000 annual aggregate. Coverage will apply to liability for professional error, act or omission arising out of or in connection with the Contractor's Services under the Contract. The coverage shall not exclude bodily injury, property damage or hazards related to the work rendered as part of the Contract or within the scope of the Contractor's services under the Contract, including testing, monitoring, measuring operations or laboratory analysis where such Services are rendered under the Contract.
- 6.3. Commercial General Liability ("CGL"). Not less than \$1,000,000 per occurrence and \$2,000,000 annual aggregate. Coverage shall include personal injury, bodily injury, and property damage for premise-operations liability, products/completed operations, personal/advertising injury, contractual liability, independent contractor liability, and stop gap/employer's liability. Coverage shall not exclude or contain sub-limits less than the minimum limits required herein, without the prior written approval of the County. The certificate of insurance for the CGL policy shall expressly cover the indemnification obligations required by the Contract.
- 6.4. Automobile Liability.
- Contractor shall maintain personal automobile insurance on all vehicles used for Contract purposes as required by law.
  - Not less than \$100,000 per occurrence and \$300,000 annual aggregate. If a personal automobile liability policy is used to meet this requirement, it must include a business rider and cover each vehicle to be used in the performance of the Contract. If Contractor will use non-owned vehicles in performance of the Contract, the coverage shall include owned, hired, and non-owned automobiles.
  - Not less than \$1,000,000 per occurrence and \$2,000,000 annual aggregate. Coverage shall include liability for any and all owned, hired, and non-owned vehicles. Coverage may be satisfied with an endorsement to the CGL policy.

- 6.5. Umbrella or Excess Liability. The Contractor may satisfy the minimum liability limits required for the CGL and Automobile Liability under an Umbrella or Excess Liability policy. There is no minimum per occurrence limit of liability under the Umbrella or Excess Liability; however, the annual aggregate limit shall not be less than the highest "Each Occurrence" limit for either CGL or Automobile Liability. The Contractor agrees to an endorsement naming the County as an additional insured as provided in this Section, unless the Umbrella or Excess Liability provides coverage on a "Follow-Form" basis.
- 6.6. Workers' Compensation and Employer Liability. If applicable, the Contractor shall maintain workers' compensation insurance as required under the Title 51 RCW (Industrial Insurance), for all Contractor's Personnel eligible for such coverage. If the Contract is for over \$50,000, then the Contractor shall also maintain employer liability coverage with a limit of not less than \$1,000,000.
- 6.7. Primary, Non-Contributory Insurance/Subcontractors. The Contractor's and its subcontractors' insurance policies and additional named insured endorsements will provide primary insurance coverage and be non-contributory. Any insurance or self-insurance programs maintained or participated in by the County will be excess and not contributory to such insurance policies. All Contractor's and its subcontractors' liability insurance policies must be endorsed to show as primary coverage. The Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All subcontractors shall comply with all insurance and indemnification requirements herein.
- 6.8. Review of Policy Provisions. Upon request, the Contractor shall provide a full and complete copy of all requested insurance policies to the County. The County reserves the right without limitation, but has no obligation to revise any insurance requirement, or to reject any insurance policies that fail to meet the requirements of the Contract. The County also has the right, but no obligation to review and reject any proposed insurer providing coverage based upon the insurer's financial condition or licensing status in Washington. The County has the right to request and review the self-insurance retention limits and deductibles, and the Contractor's most recent annual financial reports and audited financial statements, as conditions of approval. Failure to demand evidence of full compliance with the insurance requirements or failure to identify any insurance deficiency shall not relieve the Contractor from, nor be construed or deemed a waiver, of its obligation to maintain all the required insurance at all times as required herein.
- 6.9. Waiver of Subrogation. In consideration of the Contract award, the Contractor agrees to waive all rights of subrogation against the County, its elected and appointed officials, officers, employees, and agents. This waiver does not apply to any policy that includes a condition that expressly prohibits waiver of subrogation by the insured or that voids coverage should the Contractor enter into a waiver of subrogation on a pre-loss basis.
- 6.10. Additional Insured, Endorsement and Certificate of Insurance. All required insurance coverage, other than the workers' compensation and professional liability, shall name the County, its elected and appointed officials, officers, employees, and agents, as additional insureds and be properly endorsed for the full available limits of coverage maintained by Contractor and its subcontractors. Endorsement is not required if the Contractor is a self-insured government entity, or insured through a government risk pool authorized by Washington State.

The Certificate of Insurance and endorsement shall identify the Contract number and shall require not less than thirty (30) days' prior notice of termination, cancellation, nonrenewal or reduction in coverage. At the time of execution, the Contractor shall provide the Certificate of Insurance, endorsement, and all insurance notices to: Risk Management Division, Kitsap County Department of Administrative Services, 614 Division Street, MS-7, Port Orchard, Washington 98366.

- 6.11. General. The coverage limits identified herein are minimum requirements only and will not in any manner limit or qualify the liabilities or obligations of the Contractor under the Contract. All insurance policy deductibles and self-insured retentions for policies maintained under the Contract shall be paid by the Contractor. Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the County, its elected and appointed officials, officers, employees, or agents. The Contractor's insurance shall apply separately to each insured against whom a claim is made or suit is brought, subject to the limits of the insurer's liability.
- 6.12. Claims-Made. If the Contractor's liability coverage is written as a claims-made policy, the Contractor shall purchase an extended-reporting period or "tail" coverage for a minimum of three (3) years following completion of the performance or attempted performance of the provisions of this Contract.

  - (4) That passwords are significantly different from the previous

four passwords. Passwords that increment by simply adding a number are not considered significantly different.

- h. When accessing Confidential Information from an external location (the Data will traverse the Internet or otherwise travel outside the Contractor's network), mitigate risk and enforce password and logon requirement for users by employing measures including:
  - (1) Ensuring mitigations applied to the system do not allow end-user modification.
  - (2) Not allowing the use of dial-up connections.
  - (3) Using industry standard protocols and solutions for remote access. Examples include but are not limited to RADIUS Microsoft Remote Desktop (RDP) and Citrix.
  - (4) Encrypting all remote access traffic from the external workstation to a Trusted Network or to a component within the Trusted Network. The traffic must be encrypted at all times while traversing any network, including the internet, which is not a Trusted Network.
  - (5) Ensuring that the remote access system prompts for re-authentication or performs automated session termination after no more than 30 minutes of inactivity.
  - (6) Ensuring use of a Multi-Factor Authentication to connect from the external end point to the internal endpoint.
- i. Passwords or PIN codes may meet a lesser standard if used in conjunction with another authentication mechanism, such as a biometric (fingerprint, facial recognition, iris scan) or token (software, hardware, smart card, etc.) in that case:
  - (1) The PIN or password must be at least 5 letters or numbers used in conjunction with at least one other authentication factor;
  - (2) Must not be comprised of all the same letter or number (11111,22222, aaaaa would not be acceptable).
  - (3) Must not contain a run of three or more consecutive numbers (12398, 98743 would not be acceptable)
- j. If the contract specifically allows for storage on a Mobile Device, passcodes for the device must:

- (1) Be a minimum of six alphanumeric characters
- (2) Contain at least three unique character classes (upper case letter, lower case letter, number).
- (3) Not contain more than a three consecutive character run. Passwords consisting of 12345, or abcd12 would not be acceptable.

k. Render the device unusable after a maximum of 10 failed logon attempts.

### **Confidentiality.**

- **The Contractor shall not use, publish, transfer, sell or otherwise disclose any Confidential Information gained by reason of this Contract for any purpose that is not directly connected with Contractor's performance of the services contemplated hereunder, except:**
  - as provided by law; or,
  - in the case of Personal Information, with the prior written consent of the person or personal representative of the person who is the subject of the Personal Information.
- **Ensure the security of Confidential Information transmitted via fax (facsimile) by:**
  - Verifying the recipient phone number to prevent accidental transmittal of Confidential Information to unauthorized persons.

### **Data Transport:**

1. Paper Documents: Send paper documents containing Confidential Information via a Trusted System.

**Protection of Data. The Contractor agrees to store data on one or more of the following media and protect the data as described. Electronic data can be on desktops, laptops, and other portable devices, servers and external media:**

1. **Hard disk drives.** For Data stored on local workstation hard disks, access to the data will be restricted to Authorized Users by requiring logon to the local workstation using a unique user ID and hardened password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards.

2. **Network server disks.** For Data stored on hard disks mounted on network servers and made available through shared folders, access to the data will be restricted to authorized users through the use of access control lists which will grant access only after the authorized user has authenticated to the network using a unique user ID and hardened password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on disks mounted to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.

**For DSHS/County confidential data stored on these disks, deleting unneeded data is sufficient as long as the disks remain in a secured area and otherwise meets the requirements listed in the above paragraph. Destruction of the data as outlined in Section 11. Data Disposition may be deferred until the disks are retired, replaced, or otherwise taken out of the secured area.**

3. **Optical discs (CDs or DVDs) in local workstation optical disc drives.** Data provided by DSHS on optical discs which will be used in local workstation optical disc drives and which will not be transported out of a secured area. When not in use for the contracted purpose, such discs must be stored in a Secure Area. Workstations which access DSHS/County data on optical discs must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
4. **Optical discs (CDs or DVDs) in drives or jukeboxes attached to servers.** Data provided by DSHS on optical discs which will be attached to network servers and which will not be transported out of a secure area. Access to data on these discs will be restricted to authorized users through the use of access control lists, which will grant access only after the authorized user has authenticated to the network using a unique user ID and hardened password or other authentication mechanisms which provide equal or greater security, such as biometrics or smart cards. Data on discs attached to such servers must be located in an area which is accessible only to authorized personnel, with access controlled through use of a key, card key, combination lock, or comparable mechanism.
5. **Paper documents.** Any paper records must be protected by storing the records in a secure area which is only accessible to authorized personnel. When not in use, such records must be stored in a Secure Area.
6. **Data storage on portable devices or media.**
  - A) Except where otherwise specified herein, DSHS/County data shall not be stored by the Contractor on portable devices or media unless specifically authorized within the Terms and Conditions of the contract. If so authorized, the data shall be given the following protections:

- Encrypt the data.
  - Control access to devices with a unique user ID and hardened password or stronger authentication method, such as physical token or biometrics.
  - Manually lock devices whenever they are left unattended and set devices to lock automatically after a period of inactivity, if this feature is available. Maximum period of inactivity is 20 minutes.
- B) Apply administrative and physical security controls to Portable Devices and Portable media by:
- Keeping them in a Secure Area when not in use,
  - Using check-in/check-out procedures when they are shared; and
  - Taking frequent inventories.
- C) When being transported outside of a Secure Area, Portable Devices and Portable Media with confidential DSHS/County data must be under the physical control of Contractor staff with authorization to access the Data, even if the Data is encrypted.

## 7. Data Stored for Backup Purposes

- (1) DSHS/County data may be stored on Portable Media as part of a Contractor's existing documented backup process for business continuity or disaster recovery purposes. Such storage is authorized until such time as media would be reused during the course of normal backup operations. If backup media is retired while DSHS/County Confidential Information still exists upon it, such media will be destroyed at that time in accordance with Section 11. Data Disposition.
- (2) DSHS/County data may be stored in non-portable media (e.g. Storage Area Network drives, virtual media, etc.) as part of a Contractor's existing documented backup process for business continuity or disaster recovery purposes. If so, such media will be protected as otherwise described in this attachment. If this media is retired while DSHS Confidential Information still exists upon it, such media will be destroyed at that time in accordance with Section 11. Data Disposition.

8. **Cloud Storage.** DSHS Confidential Information requires protections equal to or greater than those specified elsewhere within this attachment. Cloud storage of data is problematic as DSHS/County nor the Contractor has control over the environment in which the data is stored. For this reason:

(1) DSHS/County Data will not be stored in any consumer grade Cloud solution, unless all of the following conditions are met:

- a) Contractor has written procedures in place governing the use of the Cloud storage and Contractor can attest to the contract listed in the contract and keep a copy of the attestation for your records in writing that all such procedures will be uniformly followed.
- b) The Data will be Encrypted while within the Contractor network.
- c) The Data will remain encrypted during transmission to the Cloud.
- d) The Data will remain encrypted at all times while residing within the Cloud Storage solution.
- e) The Contractor will possess a decryption key for the Data, and the decryption key will only be possessed by the Contractor.
- f) The Data will not be downloaded to non-authorized systems, meaning systems that are not on the contractor network.
- g) The Data will not be decrypted until downloaded onto a computer within the control of an Authorized User or within the contractor network.

(2) Data will not be stored on an Enterprise Cloud storage solution unless either:

- a) The Cloud storage provider is treated as any other Sub-contractor, and agrees in writing to all the requirements within this attachment; or,
- b) The Cloud storage solution used is HIPPA compliant.

(3) If the Data includes protected health information covered by the Health Insurance Portability and Accountability Act (HIPPA), the Cloud provider must sign a Business Associate Agreement prior to the data being stored in their Cloud solution.

9. **System Protection.** To prevent compromise of systems which contain DSHS/County Data or through which that Data passes:

- a. Systems containing DSHS/County data must have all security patches or hotfixes applied within three months of being made available.
- b. The Contractor will have a method of ensuring the requisite patches and hotfixes have been applied within the required timeframes.
- c. Systems containing DSHS/County Data shall have an Anti-Malware application, if available, installed.
- d. Anti-Malware software must be kept up to date. The product, its anti-virus engine and any malware database the systems uses, will be no more than one update behind current.

#### 10. Data Segregation.

- DSHS/County category 4 data must be segregated or otherwise distinguishable from non-DSHS/County data. This is to ensure that when no longer needed by the Contractor, all DSHS/County data can be identified for return or destruction. It also aids in determining whether DSHS/County data has or may have been compromised in the event of a security breach. As such, one or more of the following methods will be used for data segregation:
  - DSHS/County data will be kept on media (e.g. hard disk, optical disc, tape, etc.) which will contain no non-DSHS/County data; and/or
  - DSHS/County data will be stored in a logical container on electronic media, such as a partition or folder dedicated to DSHS/County data; and/or
  - DSHS/County data will be stored in a database which will contain no non-DSHS/County data; and/or
  - DSHS/County data will be stored within a database and will be distinguishable from non-DSHS/County data by the value of a specific field or fields within database records; and/or
  - When stored as physical paper documents, DSHS/County data will be physically segregated from non-DSHS/County data in a drawer, folder, or other container.
- When it is not feasible or practical to segregate DSHS/County data from non-DSHS/County data, then both the DSHS/County data and the non-DSHS/County data with which it is commingled must be protected as described in this attachment.

11. **Data Disposition.** When the contracted work has been completed or when no longer needed, except as noted in **Protection of Data**, the Contractor will

certify in writing that the data stored on the media listed below was destroyed utilizing the approved methods outlined in the following table:

<b>Data stored on:</b>	<b>Will be destroyed by:</b>
Server or workstation hard disks or  Removable media (e.g. floppies, USB flash drives, portable hard disks, Zip or similar disks), excluding optical discs	Using a "wipe" utility which will overwrite the data at least three (3) times using either random or single character data  Degaussing sufficiently to ensure that the data cannot be reconstructed, or  Physically destroying the disk
Paper documents with sensitive or confidential data	Recycling through a contracted firm provided the contract with the recycler assures that the confidentiality of data will be protected.
Paper documents containing confidential information requiring special handling (e.g. protected health information)	On-site shredding, pulping, or incineration
Optical discs (e.g. CDs or DVDs)	Incineration, shredding, or completely defacing the readable surface with a course abrasive
Magnetic tape	Degaussing, incinerating or crosscut shredding

**12. Notification of Compromise or Potential Compromise.** The compromise or potential compromise of DSHS/County shared data must be reported to the County within one (1) business day of discovery. The Contractor must also take action to mitigate the risk of loss and comply with any requirements imposed by law or DSHS/County.
