**Confinement Type: Isolation**

*\* Actual time is not consecutive time. It constitutes the total duration of isolation within a reported event (as defined in RCW 13.22.010) less a juvenile's normal sleeping hours, interim rest hours, any time a juvenile request to spend in their room, rest periods in between facility programming... Additionally, time spent out of isolation for court, programming, or services has also been deducted. \**
