

RIGHT OF WAY PERMIT

WHAT IS A RIGHT OF WAY PERMIT?

A Right of Way Permit allows you to use and/or improve County Right of Way. When you apply for a Right of Way Permit, your permit will be conditioned to ensure it is constructed to Kitsap County Road Standards (as adopted under Ordinance 293-2003 Chapter 4 and KCC 11.22).

WHY SHOULD I APPLY FOR A RIGHT OF WAY PERMIT?

A Right of Way Permit is needed to construct, alter, repair, or relocate any utility/roadway feature in Kitsap County right of way as provided in RCW 36.88.320 and KCC 11.36. The placement, construction, or installation of any improvements within county rights of way which violates the provisions of KCC 11.36 is declared to be unlawful and a public nuisance and may be punishable by law. When improvements are constructed to County standards, it allows the road crews to properly maintain the roads, allows the roads to be plowed when it snows, provides proper storm water runoff, and ensures quality infrastructure for current and future citizens.

HOW MUCH DOES A RIGHT OF WAY PERMIT COST?

For current fee information, see the DCD Fees Schedule at kitsap.gov/dcd/Pages/Payments.aspx.

HOW DO I OBTAIN A RIGHT OF WAY PERMIT?

Visit kcowa.us/ROWPermit for information and instructions on how to apply online.

MY PROJECT IS LOCATED ON AN UNMAINTAINED RIGHT OF WAY. DO I STILL NEED A PERMIT?

Yes. Even though the access road is unmaintained, the road use/improvements must meet county standards. An unmaintained road is defined as: "A road within county right of way, which is accessible to the public travel but is not maintained by the county."

For additional Information, contact Public Works – Right of Way Inspection at (360) 337-5777 or email ROWPermits@kitsap.gov
